What do they really think of us?

In its report “Perceptions of Libraries and Information Resources” (2005), the Online Computer Library Center (OCLC) reveals that 70% of respondents associate the word “library” with __________________.
Books, books, books! 

Books, books, books, rows and rows of books, stacks of books, tables filled with books, people holding books, people checking out books. Libraries are all about books. That is what I think and that is what I will always think.

--41 year old respondent
So, how do we transform this...

A library is where information and community converge...

Think bigger than books and information; think in terms of the experiences your patrons value.

What time do you close tonight?
Scott Bennett (2009), argues that librarians need to stop thinking of themselves as only “traffickers” of information, and embrace a learning-centered paradigm.
Learning Mission Possible

• LIBRARY: “provision of a centrally located venue for intellectual exchange and cultural enrichment...”

• COLLEGE: “…in order to enhance the quality of life in Buffalo and the larger community, the college is dedicated to excellence in teaching and scholarship, cultural enrichment, and service.”
Lifelong Passion for Learning

...The goal of the college is to **inspire a lifelong passion for learning**, and to **empower a diverse population of students to succeed as citizens of a challenging world**. Toward this goal, and in order to enhance the quality of life in Buffalo and the larger community, the college is dedicated to **excellence in teaching and scholarship, cultural enrichment, and service**.
What’s Beyond the Wild Blue Yonder?
Beyond the reference desk...
Beyond the one shot class...

Now, to get to the page you need is really simple. Well, not really simple but you can do it!

It's only a few clicks... maybe 3 or 4... or 10 at the very most!
Beyond books...
Beyond simply “providing access”...

Creative programming supports the professional growth, intellectual exchange, and the cultural enrichment of the entire community!
Sounds great, but...
Creative Programming on a Budget

- Literary clubs
- Book talks
- Workshop series
- Topic discussions with local experts and authors
- Collaborations!!!
Librarians are Already in a Natural Position of Leadership!
I'm good enough, I'm smart enough, and doggone it, people like me.
What are your own interests and curiosities?

How can you incorporate these interests into programs that support the learning mission of the institution?
Most Importantly...

WORKSHOP:
“Beginning Readers”
with Matthew Baker Thompson

7 pm, Butler Library 208 - Peer-based workshop on how YOU can effectively and confidently read your poetry in public. We will watch and listen to the readings of famous poets and practice reading on our own. No reading experience required. All are welcome! Please bring an open mind and poems you enjoy (your own would be best, but not completely necessary).

CAPTAIN RESEARCH AND WONDERING WOMAN

in: "Research Paper Madness"

Here, one student is about to make a friend out of his arch-enemy: the 7-page, double-spaced, 12 pt. APA format!

Who are you seeking to become Captain Research?

Together, Wondering Woman and Captain Research forge a plan to help this young man conquer his fear of the APA format research paper...

Our first order of business will be to create a search strategy!

You will need to choose a research topic.

Stop panicking, Son!

Just follow Wondering Woman’s guide to creating an awesome search strategy!

1. Summarize your topic.
2. Identify key concepts.
3. Focus your topic (location? time?)
4. Think of keywords or synonyms of your subject.
5. Create your search statement using BOOLEAN OPERATORS!
