1792-1875 — First Family of the Church or Church Family, with a branch at the South House (1826-1836)
1799-1862 — Second Family of the Church or Second Family, with a branch at the North House (ca. 1808-1837). After the North House merged into the Second Family, the name North Family seems to be used interchangeably with the Second Family but this might reflect non-Shaker usage.
